Global Skills Assessment

Which of the following best describes the provider's skill level?				
1	2	3	4	5
Movements guided by verbal instruction or through trial and error. Unable to anticipate subsequent steps or adjust for new conditions.	Knowledgeable about appropriate steps but still familiarizing with equipment and inefficient or awkward movements and positioning.	Self-directed movements with increased efficiency and planning. Success with uncomplicated procedures. But slow to recognize high-risk conditions, fails to request assistance when needed or and not familiar with best troubleshooting methods.	Smooth and well-coordinated movements. Readily identifies unexpected or high-risk conditions. Familiar with troubleshooting options and appropriately seeks assistance when needed for higher level considerations.	Efficient, well-planned, and fluid movements. Facile with all equipment and seamlessly adjusts for new conditions with effectively implemented troubleshooting techniques.
